

Example table

This is an example of a data table.

| Disability Category | Participants | Ballots Completed | Ballots Incomplete/<br>Terminated | Results      |                  |
|---------------------|--------------|-------------------|-----------------------------------|--------------|------------------|
|                     |              |                   |                                   | Accuracy     | Time to complete |
| Blind               | 5            | 1                 | 4                                 | 34.5%, n=1   | 1199 sec, n=1    |
| Low Vision          | 5            | 2                 | 3                                 | 98.3% n=2    | 1716 sec, n=3    |
|                     |              |                   |                                   | (97.7%, n=3) | (1934 sec, n=2)  |
| Dexterity           | 5            | 4                 | 1                                 | 98.3%, n=4   | 1672.1 sec, n=4  |
| Mobility            | 3            | 3                 | 0                                 | 95.4%, n=3   | 1416 sec, n=3    |
